

PARVAH
HEALTHCARE

AGEING MADE EASY

ABOUT THE FOUNDERS

Pankaj and Akash graduated from IIT Delhi and spent 5 years building tech products for MNCs and startups, focusing on excellent customer experience. While looking for ways to provide better care for their grandparents at home, they personally experienced the gaps in existing services. That's where Parvah's journey began – empowering families to provide the best care to their loved ones.

1 Hr – Rs. 700

Hear From Happy Families

Surbhi Sharma

I had a truly wonderful experience with the nursing team at Parvah. Nurse Deepak and caregiver Pramod were exceptionally kind and attentive. They communicated well, every step of the process, ensured my father was comfortable throughout. Deepak kept a detailed log and health manager Ashish kept our doctor in the loop as well.

Neeraj Aggarwal

I got Parvah's caregiver service for my father suffering from arthritis. Caregiver Manish helped him in his daily routine, personal hygiene and timely medication. Manish has played a significant part in keeping him comfortable in last few months. We highly appreciate Parvah for providing such a dedicated caregiver giving us peace of mind.
